

ALI MURTAZA

Aspiring Data Scientist — Seeking Data Science / Machine Learning Internship

Phone: +92-321-1376777

Email: alimurtaza.9dev@gmail.com

Portfolio: alimurtaza9dev-ctrl.github.io

GitHub: github.com/alimurtaza9dev-ctrl

Aspiring data scientist with 10+ ML projects spanning classification, regression, and forecasting. Built and deployed a full-stack ML app (Vendor Invoice Intelligence Portal). Seeking Data Science, ML, or BI Analytics roles.

RELEVANT SKILLS

Python	SQL	Machine Learning
Scikit-learn	Pandas	Power BI
Data Visualization	Data Cleaning	Problem Solving

Also proficient in: NumPy, Matplotlib, Seaborn, SciPy, OpenCV (cv2), DSA (Python), Excel, C++, JavaScript, React Native

PROFESSIONAL EXPERIENCE

Intern, NOBEL Navigators (USA), Remote

May 2026 – Present

- Global social-learning platform operating in 100+ countries; completed NOBEL's Fundamentals Journey — Google Workspace Essentials, Pitch & Presentation, Leadership 1.0, and Leadership Practice Facilitation
- Facilitated the Google Workspace Essentials course for incoming interns and organized public speaking practice sessions; currently completing Intro to Web Design, EduQuest, and Advanced Leadership Practice

Data Science Intern, DevelopersHub Corporation, Faisalabad, Pakistan

Mar 2026 – May 2026

- Delivered 9 end-to-end ML projects (99/100 evaluation score) across banking, healthcare, and retail
- Built Power BI dashboards to communicate insights to non-technical stakeholders

KEY PROJECTS

Vendor Invoice Intelligence Portal

2026

- End-to-end ML app for finance teams: freight cost regression (96.99% R^2) and invoice risk classification (94% accuracy)

Live Demo: bzj7pcmxxexfbdminkfmtj.streamlit.app · Stack: Scikit-learn, SQLite, GridSearchCV, Streamlit

Term Deposit Prediction & Customer Segmentation

2026

- Classifier comparison with SHAP explainability; customer segmentation via K-Means and PCA

Stack: Logistic Regression, Random Forest, SHAP, K-Means, PCA

Fresher Juice Co. — Interactive Product Showcase Website

2026

- Built a 250-frame scroll-driven canvas animation with mouse-parallax effects, a Web Audio sound synthesizer, and a live e-commerce cart with PKR pricing and promo codes

GitHub: github.com/alimurtaza9dev-ctrl/fresher-juice-3d · Stack: HTML5, Canvas API, JavaScript (ES6+), Web Audio API

+ 7 more: credit/loan risk scoring, churn & insurance prediction, energy forecasting, GrindOS mobile app (React Native) — at github.com/alimurtaza9dev-ctrl

EDUCATION

Government College University Faisalabad (GCUF), Faisalabad, Pakistan

2024 – Present

Bachelor of Science in Computer Science

Currently in 6th Semester

Current CGPA: 3.17

CERTIFICATIONS

- 5x Google Career Certificates (2026): Data Analytics, AI Essentials, AI Professional, Project Management, IT Support — Google Career Certificates Scholarship Program, selected by GCUF
